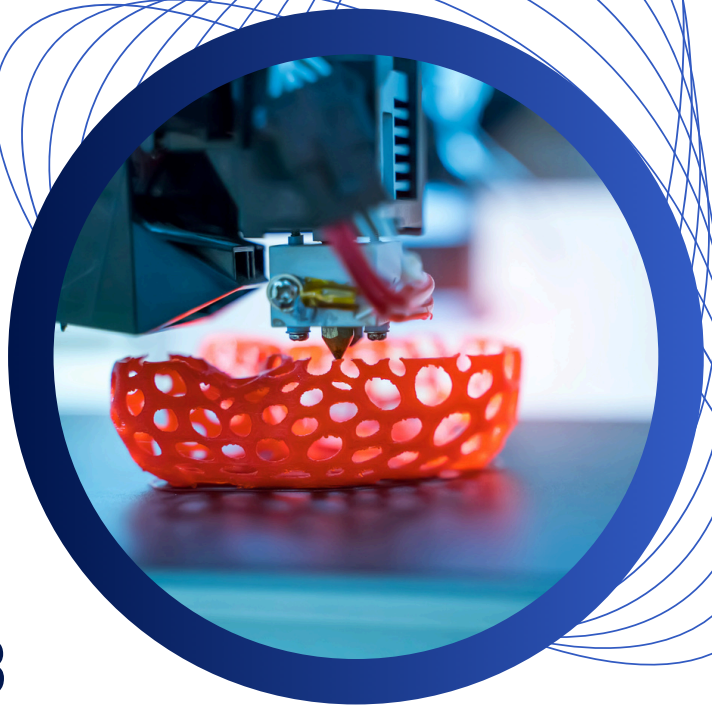
Thomas Coram School

3D PRINTING

AFTER SCHOOL CLUB



Step into the exciting world of 3D design and printing! During this hands-on club, children will learn how to create and edit designs in a 3D workspace by moving, resizing and duplicating objects, as well as grouping and ungrouping shapes to build more complex models. They will also discover how to create hollow objects and use a range of design techniques before bringing their ideas to life by creating and printing their own 3D projects. *Items will **not** be created every week.*

WHO, WHAT, WHEN:

- Wednesdays*
- 3.25-4.30
- Mrs Griffiths'/China room
- £50 for the Autumn term

BOOK VIA ARBOR

***No club on Wednesday 21st October**
